Sales Handle:

A captivating story that gives young learners new ways to think about numbers and science. While most children’s books introduce numbers 1 through 10, Pebbles asks, “What’s the largest number we can reach?”

Description:

In his search for the biggest number, Pebbles the butterfly meets new animal friends who teach him about numbers and how they relate to our world. As Pebbles continues to encounter ever larger numbers, he finally grasps the incredible idea that numbers go on forever! A wide range of free activities and exclusive resources designed for kids and teachers are available for download at BiggestNumber.com

About the Author:

Joey Benun is an award-winning writer who is inspiring young students to understand and appreciate mathematics and the natural world. Joey lives in Brooklyn, New York.
